5. The Office of Personnel reports that significantly expanded efforts to recruit DO Operations Officers is well under way. Important steps taken in pursuit of this objective include:

25X1
25X1

◦ TDY made by Director of Personnel to field recruitment centers and all recruiters personally briefed 

◦ Sent to Mike Causey for publication in The Washington Post, "Causey Column," the fact that CIA is seeking Operations Officer candidates.

◦ Wrote the Junior Chamber of Commerce, Washington, D.C., asking for assistance in spotting and referring Career Trainee (CT) candidates from within the business community.

◦ Initiated wider use of occupational-specific ads. Next placement is a lawyer's ad running in Dallas on 1 June.

◦ Developing a specific CT ad for the Houston area and other economically depressed areas offering potential job security for individuals unemployed or in the danger of unemployment.

◦ Developed and are running a series of "blind" and "open CIA" ads around the country, specifically targeting current and former police officers for the DO.

◦ Developed a number of contacts in state, city, and county police departments in the New York and New Jersey area (one current CT resulted from this effort).

◦ Analyzed and revised CT ads.

° Visited various Sector Headquarters' of the U.S. Border Patrol in California to identify potential candidates who are fallout from their program.

° Tapping pools of applicants in major cities with investigator backgrounds for counterterrorism operations.

° Increasing visits to military bases and facilities to gain entry to individuals leaving the military service.

° Tripled recruiters targeted on ethnics.

° Expanded co-op and graduate student programs to include DO participation.

° Initiated a direct mail program to contact juniors at colleges and universities. Received 34 responses in five working days from a mailing to 285 juniors at William and Mary.

25X1

6. The Office of Training and Education ran the first one-week Advanced Intelligence Seminar from 19-23 May. Participants heard from a number of outside speakers who challenged them to think differently about the media, the Congress, and the Soviet Union. There were particularly stimulating sessions with Joe Fromm, US News and World Report, and John Scali of ABC News.

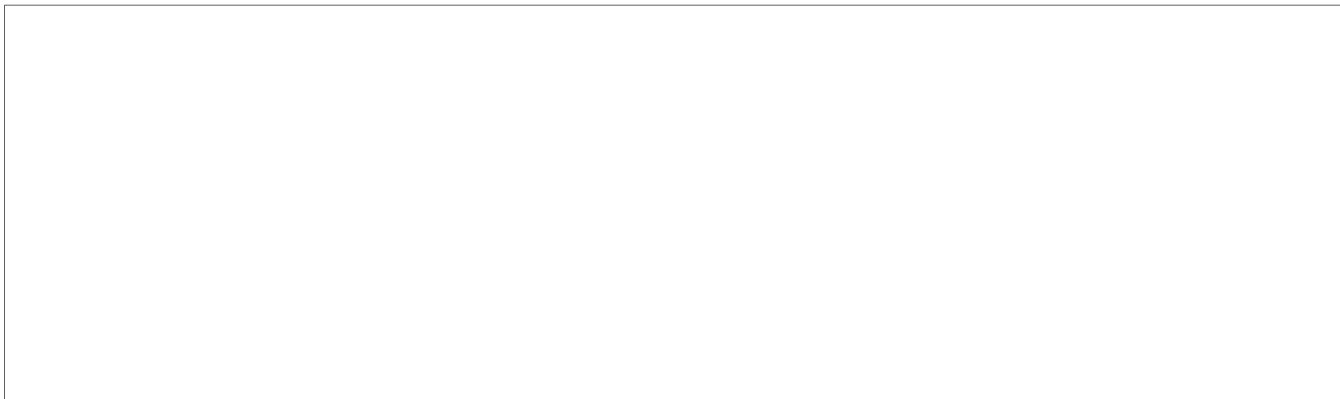

7. Participants in the Executive Development Program's elective "CIA and the Congress" met with Representative Dave McCurdy, Member, House Permanent Select Committee on Intelligence (HPSCI) and Thomas K. Latimer, Staff Director, HPSCI, on Wednesday, 21 May. The one and one-half hour session was held in the HPSCI meeting room at the Capitol.

✓ 8. The Federal Highway Administration (FHWA) informed the Office of Logistics (OL) of the George Washington Memorial Parkway acceleration lane project status. As of 1 May, the FHWA implemented the \$500-a-day penalty clause in the contract which will continue until the contractor completes the grading, sodding, landscaping, and drainage ditching.

✓ 9. OL reports that Phase I of the Counterterrorist Center Project, involving renovations in various offices in the 6F corridor, was completed on 22 May. Renovations for Phase II, 2G corridor, will start on 28 May and is scheduled for completion no later than 27 June. Renovations for Phase III, 6E corridor, will begin no later than 7 July and is scheduled for completion on or about 28 July.

✓ 11. The Printing and Photography Division/OL completed the art work for posters and accessories to accompany the upcoming "Donovan" exhibit. This project was reviewed and approved by the Office of Central Reference, Historical Intelligence Curator.

✓ 12. OL received four offers in response to a request for systems integration support which will enable D0 and DI officers to share database information relative to the Counterterrorist Program. OL personnel met this week to review the proposals and recommend the selection of a successful offer by 4 June. The resultant award is anticipated at approximately \$3,375,000.

16. On 16 May, the new IBM 3090 processor was cabled into full configuration in the [] Center by OIT. The system name for the new IBM 3090 is SYP. SYP will be used in the batch and online network in the [] Center.

17. The OIT Message Handling Facility (MHF) established direct communication with the SAFE system and the DESIST system on 27 May. This link allows cables to be delivered directly from MHF to these systems, bypassing the DATA EXCHANGE (DATEX) switch which has been used for delivery to date. This direct communication path will substantially offload DATEX and permit faster cable delivery to customers. The effort to offload DATEX is scheduled to conclude on 1 June with the creation of a new communication path linking MHF and the DO Special Computer Center.

25X1

25X1

18. The OIT Cable Dissemination System processed [] messages on 22 May, a new record for the number of messages processed in a 24-hour period.
